CORVETTE TRIVIA...

- ~The first five Corvettes to come off the assembly line did not have an outside rear view mirror.
- ~1959 was the only year that turquoise soft tops were available.
- ~1966 marked the last year for knock off wheels but the first for shoulder harnesses and headrests
- ~The 'GM Mark of Excellence' sticker, placed on the inside driver's door jamb, appeared in 1967 only.
- ~A 36 gallon fuel tank, the largest ever offered, was available as an option in the Corvette from 1963 to 1967.
- ~T-top does not refer to the shape of the roof, but rather it is short for Targa Top. The original design was a pure Targa but body flex demanded the center bar, discovered late in the design.
- ~1974 was the last year the Corvette would be produced to run on "leaded" gasoline.
- ~ More Corvettes were built in 1979 than in any other year, before or since...a total of 53,807 units were produced.
